This is a sample document testing nested link text. The `glossaries-extra` package temporarily modifies commands like `\gls` or `\glsxtrshort` that occur in fields, when any of those field is accessed through linking commands.

1 Hypertext markup language

Make sure you have glossaries.sty v4.50+ and mfirstuc.sty v2.08+ for improved sentence-casing.

First use: SSI enabled HTML (SHTML).

Next use: SHTML.

Glossary

HTML hypertext markup language 1, 3

SHTML server side includes (SSI) enabled hypertext markup language (HTML) 1, 2

SSI server side includes 1, 3
