

# Package ‘gde’

October 13, 2022

**Title** GBIF Dataset Explorer

**Version** 0.2.0

**Date** 2021-11-23

**Description** Functions to explore datasets from the Global Biodiversity Information Facility (GBIF - <https://www.gbif.org/>) using a Shiny interface.

**Encoding** UTF-8

**Imports** dplyr, stringr, DT, XML, data.table, R.utils, readr, jsonlite, progress, httr, shinyWidgets, shinycssloaders

**Depends** R(>= 4.0.0), leaflet, shiny, ggplot2, RSQLite

**License** Apache License (>= 2.0)

**URL** <https://github.com/Smithsonian/GBIF-Dataset-Explorer>

**BugReports** <https://github.com/Smithsonian/GBIF-Dataset-Explorer/issues>

**RoxygenNote** 7.1.2

**NeedsCompilation** no

**Author** Luis J Villanueva [aut, cre]

**Maintainer** Luis J Villanueva <[villanueval@si.edu](mailto:villanueval@si.edu)>

**Repository** CRAN

**Date/Publication** 2021-11-23 16:30:02 UTC

## R topics documented:

launchApp . . . . .	2
load_gbif_dwc . . . . .	2
shinyAppServer . . . . .	3
shinyAppUI . . . . .	3
<b>Index</b>	<b>4</b>

---

launchApp	<i>launches the GDE app</i>
-----------	-----------------------------

---

**Description**

launches the GDE app

**Usage**

```
launchApp()
```

**Value**

shiny application object

---

load_gbif_dwc	<i>Open GBIF download from zip file</i>
---------------	---

---

**Description**

Function that loads the data in a zip file downloaded from GBIF

**Usage**

```
load_gbif_dwc(zipfile = NA, tmpdir = NA, page_title = "GBIF Data")
```

**Arguments**

zipfile	Path to the zipfile
tmpdir	Temporary path for extracted files
page_title	Title to show on the Shiny app.

**Examples**

```
## Not run:
data_loaded <- load_gbif_dwc(zipfile = "####.zip", tmpdir = "/tmp", page_title = "GBIF Dataset 1")

## End(Not run)
```

---

shinyAppServer	<i>Shiny app server function</i>
----------------	----------------------------------

---

**Description**

Shiny app server function

**Usage**

```
shinyAppServer(input, output, session)
```

**Arguments**

input	provided by shiny
output	provided by shiny
session	provided by shiny

---

shinyAppUI	<i>shinyAppServer</i>
------------	-----------------------

---

**Description**

shinyAppServer

**Usage**

```
shinyAppUI
```

**Format**

An object of class `shiny.tag.list` (inherits from `list`) of length 4.
